

2024 READmarkably Lit Early Literacy Institute:

Igniting Literacy Through AI-Powered Learning

Face to Face

Virtual

Select Your Date:

Oct. 26th, Nov. 9th or Nov. 12th

Unlock cutting-edge strategies for early literacy instruction by integrating AI tools that enhance phonemic awareness, phonics, oral language development, and reading comprehension in young learners. Learn from leading experts how to leverage technology to meet the unique needs of PreK-K students, laying a strong foundation for their future reading success. This event will equip you with practical, age-appropriate insights to elevate your classroom and empower your youngest students in their critical early learning years.

Who should attend...

- PreK Teachers
- Kindergarten Teachers
- Administrators
- Early Childhood Directors

Topics...

- AI-Enhanced Phonemic Awareness & Phonics
- AI-Driven Oral Language Development
- AI in Early Literacy Assessment
- AI-Powered Reading Comprehension Tools
- Differentiated Instruction Using AI
- Play-Based Learning with AI Integration
